## Tailored Products & Services

### Writing Services

The primary goal of Tailor Made Writers is to enable our clients to complete their research write-ups within an acceptable timeframe, while also maintaining quality and producing a final result that is in line with the client's needs.

### Follow-up Consultations

Since every research paper is in itself, a journey, all writing services will also include a follow-up briefing and consultation on the items as requested by the client. All products and services from Tailor Made Writers will include these follow-ups and consultations so as to ensure that the clients are able to fully absorb the material as requested, while also gaining insights towards the content.

### Workshops

In order to engage our clients with all that is required within the scope of research, workshops will also be made available, covering all areas from research writing, to statistics, to presentation skills. These workshops will be conducted on a 1-on-1 basis, so as to provide the clients with tailored material for their individual needs.
